

HIFELL

HIFELL is a Portuguese DJ and music producer who blends pop influences with electronic and dance music, producing records that have charted on platforms like Traxsource and Beatport. Since bringing the HIFELL project to life in 2025, he's already passed 400,000 streams and connected with listeners in over 140 countries, steadily growing his audience with each new release.

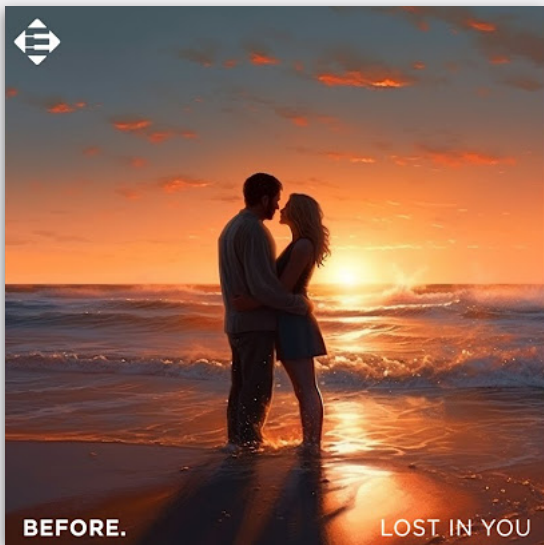

With support from respected labels and industry players such as Spinnin' Records, SMACK and Triple M, as well as collaborations with artists like TRU Concept, Will K, The Kith and Jaime Deraz, HIFELL is steadily carving out his place in the global electronic scene.

Coming from a computer science and engineering background, he brings an engineer-like precision to his performances. This mindset has taken him from major Portuguese stages like EXPOFACIC and H7 Warehouse Amsterdam to clubs from Lisbon to Maastricht, as he continues to evolve his sound and shows with every performance.
